Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Sunday 25 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Another dry, cold night. Frost developing for many overnight.

This Evening and Tonight:
Some patchy cloud and clear spells tonight, allowing for another dry, cold night. Many will see frost develop in the early hours, especially in rural areas. Minimum temperature -1 deg C (30 deg F).

Monday:
After a frosty start, some sunny spells will make for a warm, dry day, with just occasional patches of cloud present. Overnight, showers approach from the north. Maximum temperature 15 deg C (59 deg F).

Outlook for Tuesday to Thursday:
Showers through the morning on Tuesday, with rain in the north later. Further scattered showers on Wednesday and Thursday. Cloudy, and turning colder with a continued overnight risk of frost.
